2:00 A. M.—daily—Atlantic express, for Winnebago, Battle Mountain (Austin), Palisade (Eureka), Ogden, Omaha and East.

THE DAILY JOURNAL

Is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and having a general circulation throughout the State. It is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL have a combined circulation larger than that of any interior journal of Nevada, excepting those on the Comstock.

Interesting and valuable developments are being made at several points in the Ophir, and they now seem to be only really beginning to find out something about the lay of their ground. Although what they are finding out on the 2100, 2200 and 2300 levels is of much value and promise, yet it is probably a mere beginning to what will presently be developed to the eastward on the 2500 level.

45 Years before the Public THE GENUINE DR. C. McLANE'S LIVER PILLS

are not recommended as a remedy "for all the ills that flesh is heir to," but in afflictions of the Liver, and in all Bilious Complaints, Dyspepsia, and Sick Headache, or diseases of that character, they stand without a rival.

ACUE AND FEVER.

No better cathartic can be used preparatory to, or after taking quinine. As a simple purgative they are unequalled.

BEWARE OF IMITATIONS.

The genuine are never sugar-coated. Each box has a red-wax seal on the lid, with the impression, McLANE'S LIVER PILL. Each wrapper bears the signature of C. McLane and FLEMING Bros.

Just upon having the genuine Dr. C. McLANE'S LIVER PILLS, prepared by

FLEMING BROS., Pittsburgh, Pa., the market being full of imitations of the name McLane, spelled differently but same pronunciation.

INVALIDS AND OTHERS SEEKIN.

HEALTH, STRENGTH and ENERGY,

WITHOUT THE USE OF DRUGS, ARE REQUESTED TO SEND FOR THE ELECTRIC REVIEW, AN ILLUSTRATED JOURNAL, WHICH IS PUBLISHED FOR FREE DISTRIBUTION.

IT ATTESTS UPON HEALTH, HYGIENE, and Physical Condition, and gives a complete medical information for invalids and those who suffer from Nervous, Rheumatic and Painful Diseases. Every subject that bears upon health and human happiness, receives attention in its pages, and the most judicious and skillful advice is given. The preparation of a cure is advised, and valuable information is communicated to all who are in need of medical advice. The subject of Electric Health, Medicine and the hundred and one questions of vital importance to suffering humanity, are duly considered and explained.

YOUNG MEN

And others who suffer from Nervous and Phthisic Debility, Loss of Manly Vigor, Premature Exhaustion and the many gloomy consequences of early infirmities, are especially benefited by its contents.

The ELECTRIC REVIEW exposes the unmitigated frauds practiced by quacks and medical impostors who profess to practice "medicine," and point out the only safe antidote, and effective road to Health and Bodily Energy.

MISCELLANEOUS.

BISHOP WHITAKER'S SCHOOL FOR GIRLS, RENO.

This School has been in successful operation for three years and a half and has become well known throughout the State. From the time it was first opened until now no pains have been spared on the part of those who have in charge to make it a

FIRST-CLASS SCHOOL.

Fully worthy the confidence of those who have cause to be educated. And these efforts have been successful. It gives pleasure to us to know that although the number of scholars has at some times been larger than during the last term, the school is now in better condition than it has ever before been and it is now, more than ever before, worthy of patronage and support.

TEACHERS:

Miss Kate A. Hill, the first Principal, returned and resumed her position at the beginning of the last term, to the great satisfaction of every scholar, and friend of the School. Mrs. L. R. Graham has also returned, and with Miss Hill will be re-employed with the school. Miss Eva Quastel, a teacher of music, is too well and favorably known to need any enumeration from us. In addition to these, Mrs. Anna Deavey, Miss Alice, Woodruff, and Miss Anna Driscoll, three thoroughly competent teachers, have been employed during the past term. Addition to the staff of teachers will be made whenever the wants of the School may require it; but with thirty-five scholars, the number in attendance during the last term, six teachers are amply sufficient to do full justice to every scholar while especial attention is given to the

Common English Studies.

and to the health and good manners of scholars, there is not wanting every facility needed for acquiring all the accomplishments of a

HIGHER EDUCATION.

One admirable feature of the School is that lessons in Free Hand Drawing, Singing and Fingering are given regularly to all the pupils without extra charge. Mathematics and Physical Training also receive due attention. But the best feature of the School is that it is

Refined Cultivated Christian Home

It is in the formation of a pure womanly character in its pupils that it stands most enduring influence is to be found. There are few who have been long connected with the School who do not show the effect of this influence upon their character and habits. The charge made now as then, can reasonably be picked.

3300 a Year

Pay for Board and tuition in all the English studies Books and Writing are charged at the actual cost. An additional charge is made for private lessons in Music, Drawing or Modern Languages.

The Next Term begins on Thursday,

January 8, 1880.

Letters of inquiry and applications for admission should be made to

MISS KATE A. HILL,
BISHOP WHITAKER,
Virginia City, Nevada.

OUR WASHINGTON LETTER.

WASHINGTON, D. C., March 4, 1860.

Senator Logan has been giving the Democrats some hard nubs to crack in his speech against the restoration of Fitz John Porter. Many of that party have revised their views of this subject very radically, as is shown by Senator Bayard's latest proposition, which is to authorize the President to re-appoint Porter. They know that it would be entirely beyond the power of Congress to restore a man to office which can be filled only by Presidential appointment and confirmation by the Senate. Senator Logan's speech was a very strong argument against restoring Porter at all. It is finally settled that Congress

WILL DO NOTHING

At this session to disturb the tariff system. The Ways and Means Committee of the House the other day voted down several propositions for amendment, showing that an agreement cannot be reached on any point. This fact and the other one, that the financial question will remain undisturbed at present, will carry joy to the people, who are tired of agitation on this subject when business is all the time improving. It is reported here that in nearly every district of Pennsylvania the Republicans will hold

CONVENTIONS

To protest against "Boss Cameron's" management and to select delegates to go to the National Convention and contest the seats of those who were appointed by the State Convention, as the Republicans allege, "to misrepresent the majority." There can be no doubt that Cameron has "bit off" more than he can chew" when he attempts to dictate to the National Convention whom it shall nominate. The

INDIAN TERRITORY

Will probably plague the Government until a part of it at least is given up to settlement by the whites. Notwithstanding the President's proclamation, it is reported from the West that large bodies of men are preparing to go into the Territory and settle. If they do bloodshed is anticipated. Congress will probably take up the subject in some form, and possibly find a way to compromise the question. The Democratic majority have passed their

JOINT RULES

In the House, in such form that they think the minority will be practically suppressed. Time will show. But it is observable that they still hesitate to urge their legislation to restrict the administration. They are still hoping for better opportunity than has yet been presented for making party capital.

LOGAN.

RAILROAD TALK.

(Plumas National.)

The introduction of the bill granting a franchise for a railroad from Truckee to Quincy has created considerable talk among Plumas people. The matter has been turned over and over, but so little is known of the project or the men who are at its head, so everything, as yet, is mere surmise. We have been asked a multitude of questions in regard to it, but have but little on which to found an answer that conveys anything new. We heard it stated by a gentleman who has good opportunities to know, that the most of the originators of the Truckee & Quincy Railroad scheme, are Union Pacific R. R. men, and that the Central Pacific managers are friendly to the project, and ready to assist it. If such is the case there is some ground to hope that it will be pushed through. We fervently hope that it will be, but whether the time has come for it is the question. The demand for timber is sure, sooner or later, to bring the road into our timber country and then, as a matter of course, it will be extended to this valley at least, for the purpose of getting control of the freight, passenger travel and mails for Plumas. It would be a grand thing for our county, and would open a multitude of chances which are now lying dormant for the reason that they cannot be made available without railroad communication.

"The Union Pacific is at the bottom of the new project, the road will be a broad gauge, and it might be possible that the ultimate object is to extend the road to the Sacramento Valley and tide-water, through the Feather river canyon, thereby avoiding the steep grades and high altitudes of the Dutch Flat route.

However, we can only watch and wait, hoping that natural wants will, either this year or in the near future, force capital to open up for our people an avenue of railroad communication with the outside world.

ASSESSMENT NOTICE.

"Speaking of wild flowers," says a writer in the Californian, "I have in my mind's eye a level expanse of pasture land lying between the Merced and San Joaquin rivers, near the two or three empty houses called Dover, which, for various and multitudinous color, kaleidoscopic permutations and general rainbow effects I have never seen equalled; thousands of acres—not hundreds—dotted with the orange of the poppy, the purple of the violet, the yellow of the buttercup, and the pink of the clover, the blue of the larkspur and the deep scarlet of the silene, seemed to wave a carpet harmonious in color and exquisite in its blending and contrasting tints."

Tilden is said to have already engaged 500 hotel rooms in Cincinnati.

E. A. Littlefield, of the Elk Post, is home again.

The New York Picayune thinks that the Czar would like to be Charley Ross.
